Thousands in Chicago Hear Harding

Thousands of people in Chicago last night heard President Harding's St. Louis speech on the world court as It was delivered. The address was broadcast by a radio service and it could be plainly heard by those who were listening in on their radio instruments in this city. There was some interference due to static and telegraph instruments, but some radio fans reported that they were able to catch almost every word the President said.

How leaders of American thought and particularly the Republicans would regard the President's prescrip tion for the ills which beset his origition for the ills which beset his original court proposal could not be definitely predicted here tonight. No. 13

Why have the sales of high-priced automobiles decreased?

Sales of automobiles have increased tremendously, but the sales of high-priced automobiles have decreased relatively to this increase. What is the reason?

The Answer

The makers of higher-priced automobiles have not maintained the leadership they had at the start. While they have persisted in making the same poppet valve engine with no fundamental improvements, the moderate-priced car maker, because of volume sales, has been enabled to provide practi-

cally the same engine at much less expense.

The engine is the heart of the automobile. It is from the engine that performance comes and it is in performance that the cheaper cars have gained on the higher cost product.

Today the value of the \$3,000, \$4,000, \$5000 and \$10,000 poppet valve car has lost in comparison with the low-priced poppet valve car from a "dol-

lar and sense" standpoint.

The fact that fewer of these higher-priced cars are sold comparatively proves a keener appreciation of value on the part of the public. The public wants the most automobile for each dollar of the price and this they no longer get in the higher-priced auto-

The only great differences are in size-embellishments—upholsterings, etc. These luxuries are worth having, of course, but the sensible buyer does not want to pay more than these things are worth, when the high-priced poppet valve car manufacturer still sticks to his old-type engine and has lost his first advantages of performance to a large extent.

Another handicap to the high-priced manufac-turer is that by sticking to his limited and expen-sive method of distribution he has been unable to reduce his car price to secure increased volume and meet increased competition with reduced cost and

In the K&V Knight Six, nowever, we other the night-priced car buyer something different. We offer him an engine designed and built because of the automobile and for the au-tomobile exclusively. This engine gives the buyer a depend-ability and a flexibility of performance with which the poppet valve engine can't compare. Our R&V Knight Six engine is so remarkable that it is sealed at the factory and the owner is guaranteed against any and every service expense for two years.

For all these reasons we offer the R&V Knight not only as he Finest All Around Automobile in America, but the greatest ollar for dollar palue. We offer "Care-free Motoring," luxury nd distinction at a sensible price.

A wise standard that proved its wisdom

The story of Martha Washington's rapid rise to national prominence, as a family candy, is an instance where "truth is stranger than fiction."

The countless thousands who are responsible for this phenomenal growth cite two reasons for their constant patronage: Honest Quality and a

Fair Price. Through 21 years these have become traditional with Mar-

tha Washington. Do people who buy Martha Washington Candies regularly recommend these candies to their friends? We asked them.

Dear Martha,

I have discovered Martha Washington Candies to be the best on the market, and I have had experience with a great many varieties.

My first box was sent to me for Xmas about eight years ago, and I have bought them regularly ever since.

Its taste, freshness, variety and reasonable price are all in its favor. Just try one box and you will be as enthusiastic about it as I am.

It is promised that within thirty days Michigan nue traffic will be regulated by towers from ed street to Randolph, possibly to Lake street, if e city will be generous enough to allow John lertz to spend more of his money extending the tem out of South Park territory. The tower stem works perfectly in New York. That is why daring innovators of the south park board felt tified in permitting a private citizen to advance money to prove that it would work in a small etch of Chicago's most crowded avenue. Amazing, isn't it? The only official act in Chi-

A FEDERAL TAX REDUCTION

With a contemplated federal deficit of \$809,000,-00 changed to a probable surplus of \$200,000,000 or the current fiscal year, the outlook for a reducon of the federal income tax next year is en-

evidence of greatly improved administration federal financial affairs under the Harding ad ment of general prosperity. Reduc- recreation, is not enough. ion of taxes should be of interest to the multitude hiefly because of the connection of such reduc- protest at this rural attempt to interfere with the on with the continuation of prosperity.

Naturally, all taxpayers have a direct personal others. Moreover, the courts are quite likely to delinterest in having their tax bills reduced. But clare the proposed law unconstitutional. However, it is even more important that their incomes shall after all, the best thing would be for the troubletot be reduced. Better a high annual income and makers to think the matter over a little more, and some taxes than a low income and no taxes. LASKER PUTS IT OVER.

By this time it must be pretty clear to the public that Mr. Albert Lasker knew what he was about when he projected the Leviathan trial trip. He has got for his great ship advertising that is unpurchasable and therefore can't be estimated in money. But if the publicity given the junket were figured up merely in terms of advertising space it would run into millions.

That illustrates a difference between Lasker and his critics: Lasker knew what he was doing, his critics did not. They didn't know what Lasker was doing nor what they were doing. Lasker might acknowledge their assistance in making the Leviathan a sensation, but he need not thank them for their intention was not to beln.

The whole incident is worth thinking over, for it illustrates one of the weaknesses of popular government. Mr. Lasker is an expert, a master in his field. But that didn't save him. Professional politics belabored him. The expert is attacked for doing the expert thing. If politics could have prevented Lasker it would certainly have done so and abused him into the bargain. How can a republic manage to get expert service? It cannot expect to get it except as men sionally will sacrifice themselves for a cause to which they are devoted. Then they will be to which they are devoted. Then they will be "He's certainly popular!" said she. "Tes," assente hampered and defeated by inexpert and uninformed he; "and, believe me, that baby surely hefts wicked casket!"

BRIGHAM O'BRIEN. criticism, their motives impugned, their actions unjustly suspected and misinterpreted.

Public service is personal sacrifice in this country and therefore the republic cheats itself. Public tasks are usually performed by mediocrities. The American people had better remember that as they are invited to extend government regulation farther and farther over enterprise,

EATA WHEAT.

Senator Royal S. Copeland of New York advised the national wheat conference to dispose of the 170,000,000 bushel wheat surplus by getting every American, with teeth, to eat another slice of bread at each meal. He probably has figured it out. The extra slice might do it. The thing to do is out of courtesy to the staff of the institution, was to get a law. The remedy is in a "bill for an act ntitled an act to amend an act regulating the neals of citizens of the United States."

We then should make another pork chop compulsory. Eat another onion, another pineapple, another slice of cold roast beef, another cheese another cabbage, another corn cake, another clam another lump of sugar. Uncle Sam will fill out with a report of the kidnaping of an that slim figure of his and look like a beer barrel lian priest by other bandits. Simultaneously -no, not a beer barrel. He must not even think of beer. What we need is more law.

Meeting Your Every Banking Need

THERE is scarcely a person or an organization in Chicago but can benefit by an association with one or more of the departments of the Illinois Merchants Banks.

This advertisement is a cordial invitation to you to come in and talk things over with us personally—whether your errand is the opening of a small savings account, or the discussion of a problem involving large questions of finance.

Here you will find a friendly welcome, and an able organization trained through many years to serve each customer well and faithfully.

Savings

More than 200,000 savings depositors have indicated their confidence in the Illinois Merchants Banks by entrusting their savings to our care. We are proud of these 200,000 customers. Their banking with us is the result of many years of service rendered in a true spirit of helpfulness—a service as complete and friendly to the person with the small account as to the larger depositor. The officers in our Savings Departments will be glad to tell you of our various savings plans and help you with your financial problems.

Commercial Banking

The ready accessibility of our officers for the discussion of the financial problems of our customers has been an important factor in developing our large volume of commercial banking business. A truly personal service is given to each customer—and the great financial strength and stability of the institution lend a prestige which is useful both to business houses and to individuals. There are many definite advantages in an association with the Illinois Merchants Banks—advantages which appeal strongly to business men and women.

Trusts

More than a half billion dollars in trust funds are being administered by our Trust Department—a volume of business which has come to us as the result of many years of adherence to the highest ideals of trusteeship. The large number of estates in our care, including many of the oldest and most important in Chicago, is in itself an evidence of wide experience and an assurance of sound management. We are prepared to serve as Executor, Administrator, Guardian, Conservator, Fiscal Agent or Custodian—for moderate as well as large estates.

Foreign Banking

If you travel—if you do business with foreign countries, either export or import—if you have occasion to send or receive foreign money—you will find the services of our Foreign Banking Department useful. We are equipped to provide convenient foreign banking facilities for individuals and business houses—to relieve business men of importing and exporting detail—to advise on foreign credits and collections—to act as a clearing house of information—to be of service in many ways connected with foreign travel and trade.

Bonds

An organization of more than one hundred people in our Bond Department is equipped by long experience to render a comprehensive and able service. The beginner, as well as the experienced investor, will find this service extremely helpful—including, as it does, the purchase and sale of Government, Municipal and Corporation Bonds, and freely given counsel concerning various securities. We suggest a visit to our Bond Department. Here you will have the advice of men who specialize entirely in the analysis and handling of sound investments.

Safety Deposit

The safety deposit vaults of the Illinois Trust Safety Deposit Company, located in the Illinois Merchants Bank Building, are of the latest and most approved construction and are safeguarded by every modern electrical and mechanical method. Private safes for securities, other valuable documents, and jewelry have been provided in a wide assortment of sizes, many renting for as little as \$3.50 per year, while those with larger capacity are available at proportionate rates. A large and well-equipped vault is also maintained for the storage of trunks and bulky packages.

Excerpts From The Diary of MRS. J. VINCENT BLAKE

Written at Her Home on the North Shore

"This morning, as usual, I had breakfast with Jim, before driving him to the 8:19 and exacting his promise to return at four, to do nine holes with me at Skokie.

"The breakfast porch has a clear view of the Lake, and as we breakfasted, ripples reflecting a thousand miniature suns danced before our eyes in truly dazzling fashion—a sprightly breeze carried the fragrance of our peonies, which are now in gorgeous bloom, and Jim certainly expressed my thought when he remarked that we had never really lived, before we made this our home."

Announcing JORDAN Resale Prices

Effective May fifteenth, every Jordan car which has satisfactorily served a Jordan owner and is offered for resale to the public must bear the Mark of Jordan Service.

This is a protected plate authorized only by the Jordan Company after compliance by the dealer with certain standard rebuilding regulations.

The Mark of Jordan Service, assures the purchaser that the car on which it appears; has been rebuilt in accordance with the national standard Jordan policy-that it is sold with the same assurance as every new Jordan car, and is priced in accordance with the same standard national Jordan policy.

This policy protects Jordan owners against imposition, guards the public against deception and relieves dealers in other lines of the task of determining Jordan resale prices.

The prices on rebuilt Jordan models offered for resale in this zone are as follows, (with original standard equipment):

"We women of Paris, city of light, keep our hair always brilliant with touch of henna in the shampoo"

From a letter written by Mme. La Marquise d'E.:

WE PARISIAN WOMEN prize as a rite of the toilette, the shampoo with a fouch of henna, that keeps our hair alive with light and lustre.

"Women of my world—all of us—whether our hair is black as night, like my own, or blonde as sunlight, like Adrienne's, must have our touch of henna shampoo to keep at its height the brilliance and lustre of our hair.

"Our hairdressers have proved to us that a touch of henna in the shampoo just a touch, remember—means beautiful hair; beautiful black hair for me, beautiful blonde hair for Adrienne. The secret is in how the shampoo is prepared.

"Your American women of society know all this. But every American woman should know it, if she would show, to her lover or her husband, her hair at its loveliest."

HENNAFOAM SHAMPOO contains just the right touch of henna scientifically treated to bring out the full beauty of every woman's hair. The touch of henna is blended with pure, cleansing vegetable oils that maintain the health of hair and scalp.

rising from a level plain-hills of endeavor. The inhabitants living on the sides of these hills,

their altitude depending on their worth-whileness in the community; the poor and shiftless and indolent clustering around the base and struggling a little way up the sides—the more able they are, the higher they get up the hillsides.

Imagine all our American towns and cities as hills

At the bottom are the people who never read a newspaper, or anything else.

As you go up the hill, you begin to reach newspaper readers, and as you go higher the people get better and read better newspapers, and read more

And as you approach the top you reach the people who are the leaders in thought and action in that community—the heads of its businesses and the leaders of its professions. They read the newspapers, but they demand something more than newspapers. They demand The Digest.

You can go as high as you like after that, you will not get above The Digest.

So all the upper section of any community are newspaper readers. And the upper section of the newspaper readers are Digest readers.

On the upper reaches of these hill-towns are the men and women who have got somewhere, whose positions are so high, whose contacts are so many, that they are multiple customers, buying goods or influencing buying in many capacities for their homes, for their offices and for their factories.*

The upper half of the hill-towns of America is composed of Digest readers. As they think, act, and buy, so goes the community.

AN ANTONIO, Tex., June 21.

—Nick J. Morris, 21 year old San Antonio amnteur golfer, set a new world's marathon golf record today when he completed 238 holes between daylight and dark. He started at 4:55 a. m. and sank his final putt on the 288th green at 8:10 p. m. He played over the Brackenridge municipal course, making thirteen rounds of the 5,209 yard course and playing the first two holes twice of the Ridgemoor club. Last year Novotny won the Illinois championship timber by winning the seventeenth annual championship of the Lumbermen's Golf association of Chicago. It was his second consecutive supposes and conse tive success and came as the result of two finely played rounds of 75—74— over the Beverly course, which netted playing the first two holes twice before darkness forced him to before darkness forced him to step.

The former record of 228 holes was held by Charles Daniels, and was made on the Long Lake Country Club course, New York.

His average was 897-13 for each round of the eighteen holes. He took twenty strokes for the other four heles that he played after he had finished the thirteen rounds. His scores for the rounds were: 84, 91, 8, 89, 90, 90, 84, 89, 88, 102, 88, 88, 91. After he finished the twelfth round he was forced to play the first nine holes twice for the thirteenth round. The greens were being watered on the last aine making it impossible to put. The first nine measure some 200 yards farther than the last nine.

The course is 6,200 yards in length, making a fistence of more than forty-nine miles that Morris covered.

Major Standings Fourth Inning Attack and Cvengros Win for Sox, 6-1

BY IRVING VAUGHAN. Philadelphia, Pa., June 21.—[Special.]—Brilliant fielding behind Louis Mike Cyengros, coupled with a noisy inning that netted four runs, lifted the White Sox to victory today in the final of the eastern invasion. The final of the eastern invasion. The McClellan, ss... score was 6 to 1, making three out of Collins, 2b..... four from the Mackmen, and nine wins against five defeats in these parts.

SAY WHAT'S THE MATTER WITH YOU? MIRST YOU'RE ON ONE

SIDE OF ME AND THEN YOU'RE ON THE OTHER-WHAT'S THE IDEA?

The Sox decided this affair by turning loose their heavy artillery in the fourth frame. A homer by Eddie Colins gave them a one run advantage nidable, so they stormed up and drove Bob Hasty off the slab with four resounding whacks wrapped around a base on balls. Cvengros Always Strong.

After that two southpaw workers faced them and they could collect only one additional tally.

Hairbraid Hats For Summer Are Specially Priced at \$10

HAIRBRAID Hats, with their lightness and airy coolness, are very popular indeed this season. These are of peroxlyn hairbraid, of a quality found usually only in much higher priced millinery. Some are entirely of hairbraid, and others have hairbraid brims, using georgette, crepe, satin, taffeta or malines as a basis for the crowns.

The colors are often blended with other similar shades to give a

variety effect. And the styles and shapes are numerous. Many different types of trimmings are used-flowers of all colors and kinds, ostrich or burnt goose feathers, filmy lace or malines.

You will find that they may be worn all summer. American Room Fifth Floor, North, State

The dust covered, sweating horses toiled on and up, past the cobbled little space where the old fishermen sat drowsing with their folded nets and through the narrow passage that led to the entrance of the Villa Tatina. Alice's heart began to beat fast, and she leaned forward as though to quicken the pace. Soon she would see her mother-and her father. The sates to the villa stood open. This was the Villa Tatina, where her mother had loved and been courted. She threw a fugitive glance at the suffering sarden, so parched, so dry and wilting. The door to the villa also was open, and at the sound of wheels a woman servant came out. It was Clementine

TRIBUNE COOK BOOK

BY JANE EDDINGTON. Pecans in Cake.

Most of the nut cake recipes of ordinary size call for one cup of nuts, but if you will consider the delicate and expensive pecan as mainly a flavor for a cake you can get quite as pleasant a service from it as from the larger quantity—different service unquestionably, but a gratifying one.

For one cake use the standard three egg sponge cake recipe, which has in-numerable variations: Three eggs. one cup of sugar, one cup of flour, or a bit more, according to the texture you favor; six tablespoons of cold water or some other liquid key cold, and flavoring. If you are to add nuts of any sort to this, perhaps you will like about one-fourth teaspoon of of vanilla. This will be excellent if you add but one small handful of pe-cans put through the twelve tooth disk almond-five or six drops-and a little vanilla also in the icing.

My way of putting this cake together is to sift flour several times, measuring after the first sifting; then sifting sugar, separating eggs, and part of the sugar into the whites after they are stiff and dry, and the rest of the sugar into the yolks. It is well to add a pinch of salt to the whites before beating them, and to stop adding sugar when it is hard to them and beat well and with the sugar until ribbony. Combine yolks and whites mixtures, fold in flour part at and bake in moderate oven about three quarters of an hour, and fee.

America Should Have Tax-Free Rubber

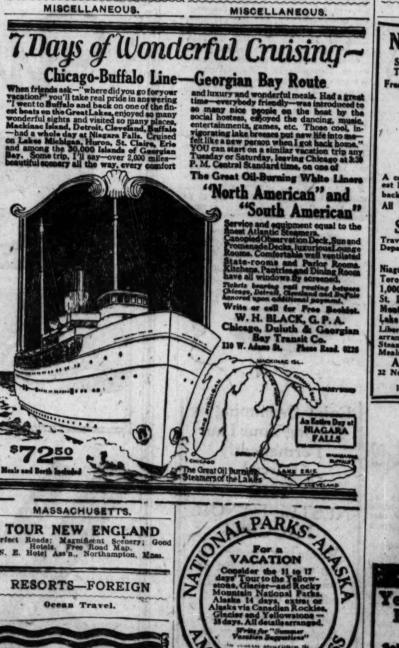

Tires and economy in motor transportation are so intimately related that safeguarding the future of our rubber supply becomes a subject of vital national importance.

Forward-looking American tire manufacturers—the world's largest consumers of rubber—are alread; preparing to meet the situation, and in due time an ample supply of raw rubber will undoubtedly be available in districts free from burdensome taxes and restrictions.

Supplementing the commendable efforts now being put forth to provide the United States with tax-free rubber, the Pennrylvania Rubber Company of America, Inc., has already engaged a staff of experts for research in countries throughout the world where conditions may favor the growth of this indispensable commedity. able commodity.

PEAK OF QUALITY AND ECONOMY

Because no other tire is built the same way or made of like materials, no other tire has the wearing strength, the riding quality and the tractive power of the new Goodyear Cord Tire with the beveled All-Weather Tread.

Made of a new and longer-wearing rubber compound, the tread of this tire is now beveled at the outer edges, and the big tough blocks of this tread are reinforced at the base by heavy rubber Every cord in the carcass of this rugged, long-

lasting tire is made of highest-grade long-staple cotton of extra tensile strength. The exclusive Goodyear method of group-

construction is employed to defeat internal friction and promote long wear.

The sidewalls are built extra heavy to resist rut wear and curb wear. And the famous Goodyear All-Weather Tread provides maximum traction and safety in every kind of going.

As Goodyear Service Station Dealers we sell and recommend Goodyear Tires and back them up with standard Goodyear Service. NORTH SIDE

Serving the Individual Needs of Each Investor

WHETHER as conservators of large funds with wide investment experience to guide them, or as working people seeking the safe investment of savings—investors logically come to Halsey, Stuart & Co.

Whether the problem is the investment of one hundred dollars or one hundred thousand, they get the same degree of attention.

This organization is old in experience, but through years of growth and expansion it has kept its youthful ideal of serving every customer, large or small, according to each one's individual needs.

As underwriters of a wide variety of bond issues, this House is a buying as well as a selling organization. Its knowledge of issues, from their very origin, on which is based the investment of its own money, gives real substance to the investment counsel available to Halsey, Stuart & Co.

Only a complete bond organization, inspired by constructive House policy and great resources, can render such broad and yet such individual-

Six Elements Necessary to Success in Selling Bonds

O MAKE THE MOST of his own ability, a bond salesman must have these elements of support and co-operation from his House:

- 1. A broad selection of sound investment securities to offer
- 2. Substantial resources behind the House
- 3. House connections that are influential 4. Open road to advancement in the organization
- 5. Liberal basis of compensation
- 6. A helpful family spirit in the organ-

A bond house which surrounds its men with these advantages is always growing in a dull market or a brisk one. A Chicago Bond House of high standing offers all of these advantages to three or four men experienced in the sale of highest grade bonds and preferred stocks. From 1802 to 1821 American railroads increased the number of their cars from 1.548.181 to 2.578.682 or 54 per opat, but their aggregate carrying capacity rose from 43.445,438 to 101.092.385 tons, the unit carrying caracity from 28.1 tons to \$2.5 tons. The ton mile traffic handled increased by 97 per cent, while miles of yard and side tracks grew only 73 per

Had it not been for the increase in the size of engines and cars, the railroads would have in this period had to add 2,051,550 cars to their equipment, producing a total 51 per cent in excess of the number now used. This would have raquired 77,250 miles of additional yard and siding trackage, or 35 per cent more than that now used. To handle the traffic of today 22,523 more locomotives of the 1922 type would be required, with their crews and expenses. First and Refunding Mortgage 5% Gold Bonds

(Series "A" due June 1, 1956)

Price 954 and interest to yield over 5.30%

The following information is taken from official sources:

The company does all the telephone business in the City of Chicago and

owns and operates a comprehensive system of exchanges and toll lines throughout the State of Illinois.

The bonds will be secured, in the opinion of counsel, by a first mortgage

on all real estate, buildings, and telephone plants of the company in the State of Illinois, excepting property recently acquired from the Southwestern Bell Telephone Company at a cost of \$843,000. By December 1st, this year, when the existing bonded debt will be retired, these \$50,000,000 Series "A" bonds will constitute the company's sole funded debt, against which the book value of real estate, buildings and telephone plant was approximately \$133,000,000 on March 31st, 1923.

During the past ten years the company's net earnings have averaged over three times the interest charges and in no one of these years have they been

less than twice the interest charges. During 1921 and 1922 the net earn-

ings amounted to more than three times the annual interest requirements

Population (1920 Census) - 645,872 These Farm Loan or Real Estate Bonds are doubly secured: They are a direct and general obligation of the State, payable from an unlimited ad valorem tax on all the real and personal property in the State; they are additionally secured by the deposit with the State Treasurer as collateral of a like amount of first mortgages upon improved farm lands in North Dakota at not to exceed 50% of

Especial attention is called to the fact that practically the entire bonded indebtedness of North Dakota has been incurred for capital asset purposes, so that the State has a dollar of assets for each dollar of bonds outstanding. The total

debt is less than 1% and the net debt less than 1/2%.

No Bonus Bonds have been issued, as North Dakota is paying her soldiers by the levy of an annual ad valorem tax.

North Dakota is known as "THE BREAD BASKET OF THE WORLD" because it produces more Spring wheat than any other State. 80% of its population is engaged in agriculture, the most essential and permanent industry. The purpose of this issue is to further stimulate agricultural development under a plan of rural credits similar to that employed in other States and under the Federal Farm Loan Act. North Dakota has a small Constitutional and Statutory debt limit. North Dakota has never defaulted on the payment of principal or interest.

The Constitutionality and legality of the law authorizing these Bonds have been sustained by the Supreme Court of the United States and the Supreme Court of North Dakota-

\$3,000,000

Beattie Sugar Company

Twenty Year First Mortgage 71/2% Gold Bonds

Authorized Issue \$5,000,000

To mature June 1, 1943

Interest payable June 1 and December 1, without deduction for the normal Federal Income Tax not to exceed 2%, Pennsylvania Four Mills Tax and Massachusetts State Income Tax of 6% will be refunded by the Company on appropriate request. Principal and interest payable free of present or future Cuban Taxes. Redeemable in whole or in part at 105% and accrued interest on any interest date on sixty days' notice. Principal and interest payable in United States of America Gold Coin at the office of The Chase National Bank of the City of New York. Interest also payable at the office of the First Trust and Savings Bank of Chicago.

The Chase National Bank of the City of New York, Trustee

A letter from Mr. Richard H. Beattie, President of the Company (copies of which will be furnished upon request) is summarized as follows:

PROPERTY: The Beattie Sugar Company, owning Central Isabel, is a self contained low cost raw sugar producer, located on the southeast coast of the Island of Cuba. The Company has pro-

duced sugar continuously since 1886, except during the war of Cuban Independence.

Central Isabel draws cane from 27,000 acres of owned land, over 1500 acres of leased land, 15,000 acres of controlled land and a large additional acreage of adjacent lands, making a total available cane zone of over 60,000 acres. All cane and sugar is carried over the Company's own railroads to its mill and from the mill to its wharf on deep water, without pay-

ment of a dollar of revenue to any public carrier.

All of the Company's lands have long been noted for their fertility, and their yie.d in tonnage and richness of sugar in the cane have substantially exceeded the averages for all other Cuban estates as reported by the Government statistics.

SECURITY: These Bonds will be secured, in the opinion of counsel, by a first mortgage on all the mortgageable property of the Company. A recent appraisal of the Company's fixed assets, comprising 67,000 acres of cane lands, a sugar mill of 300,000 bags capacity, 46 miles of railroad, docks, cane cultivations; railroad, marine and field equipment, etc., was in excess of

EARNINGS: Earnings available for interest, depreciation and income taxes for the eight years ended June 30, 1922, averaged in excess of \$600,000 or over \$4.11 per bag of sugar produced, equivalent to over 2-2/3 times maximum annual interest charges on this Issue. Operations for the crop just completed indicate similar earnings partially estimated in excess of \$1,200,-000 or over 5 times such charges.

SINKING FUND: Sinking Fund commencing in 1925, of 50c per bag of sugar sold, plus 10% of net earnings available for dividends, is expected to retire the entire Issue before maturity.

GENERAL: In the opinion of prominent sugar engineers, Central Isabel can make a profit at sugar prices that would cause a substantial operating deficit to most estates in Cuba, and, on the Company's 40,000 acres of virgin land at Belic, there can be developed a raw sugar property having an earning power per bag unsurpassed, if equalled, in all Cuba.

THE GIRL WHO WISHES TO ADD TREASURES TO HER HOPE

The Bride-

WOULD INVEST in bonds-the married woman would plead with her husband to buy bonds for her-if she but realized what it means to a woman to have the dependable income which bonds provide for her very own independent use and enjoyment.

And if the time comes when her main source of income is cut off, depriving her of support and bringing her and her children face to face with the cold world, the sure and regular income provided by our First Mortgage Bonds is always an inexpressible comfort, often the mainstay of life itself for her and hers.

If you are a woman, let us tell you more about our bonds. If a man, you owe this to your wife or fiancee. Or simply write for this illustrated Investment Guide and July Offering of 7% Bonds.
